

# DRYOUT®

GOES IN WET, COMES OUT DRY®

## HARD CASE LINER SHEET

ENGINEERED WITH DRYOUT® MOISTURE REMOVAL TECHNOLOGY

### MOISTURE REMEDIATION FOR MISSION-CRITICAL EQUIPMENT

### ELIMINATE MOISTURE INSIDE HARD CASES

**Prevent irreversible damage** to your gear from water, rain, sweat, or humidity. The **DRYOUT® Hard Case Liner Sheet** is designed for hard cases to protect **electronics, firearms, optics, batteries, and sensitive equipment** from moisture damage. Engineered with patented moisture-removal technology, DRYOUT actively wicks water—keeping gear dry, operational, and mission-ready.

- **Protect & recover moisture-exposed gear faster**
- **Prevents electrical damage, rust, and corrosion**
- **Electricity-free, reusable, and field-proven**

# THE DRYOUT ADVANTAGE

## DESIGNED FOR HARD CASES

- Custom sizes & shapes available for all case types.
- Attaches easily with durable Velcro for secure placement and removal.
- Works faster to wick moisture before damage occurs.
- Reusable without the need for power or electricity

## OUTPERFORMS OTHER OPTIONS

DRYOUT absorbs more moisture than other “solutions” in the market today.

**2.5x**

Plug-In  
Dehumidifier

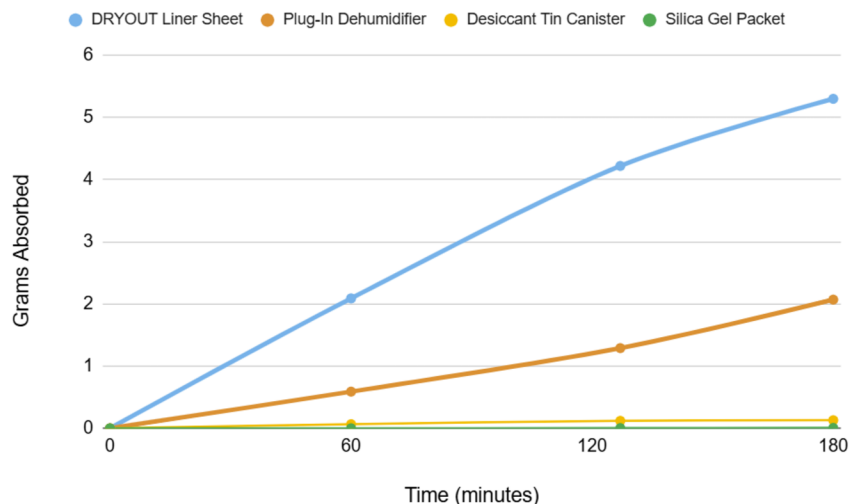

**40x**

Desiccant Tin  
Canister

**791x**

Silica Gel  
Packet

Time is of the essence. In **60 minutes**, **DRYOUT** was **3.5x faster** than a plug-in dehumidifier.

## WHY DRYOUT?

- Field operational - no power source required
- Designed for extended/repeated use
- Customizable by case size and shape
